Myra

I have received all of the data from the Lab and just waiting for an email that it is ready to be downloaded on Sky Drive.

Thanks

Brian – I advice that we wait until Ray returns next Monday. I do not have access to Sky Drive, so I cannot help you with this issue.

Have you received (by e-mail) the validated reports and the excel spreadsheets? If the answer is no, please let me know ASAP.

Take care.

Myra

I have not received emails with a link to Skynet for all of the validated data packages that I have received from Raymond. Do I need to send you or Raymond an email identifying which packages and if so how soon do I need to do that. I would note that for one of the reviewers, I have not received a single email notifying me about Skynet.
